# A GLIMPSE

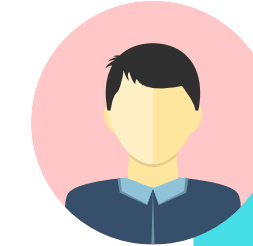

# CLIENTS SPEAK

I am truly grateful to Shraddha. She introduced me to the power of self talk and restored my self confidence. After coaching only 6 weeks I am totally loving the new version of myself, full of optimism & positive energy.

It had been awesome experience exploring myself. I spent my time in unknown rush & stress. Shraddha helped me in reinventing myself through various discussions. Thank you so much Shraddha.

**SHARAD PANDEY**

IT Professional, Melbourne, Australia

Shraddha is patient, empathetic and a intuitive coach. She is non-judgmental and an active listener.

It is easy to engage with her. You feel relaxed and comfortable to communicate. She knows a variety of exercises and has impressive tools that she uses very effectively in sessions. We did a few exercises together, these exercises gave me an amazing insight. Shraddha helped me identify my mind blocks and also guided me to resolve them. Also, she made me aware of the "stories" that were running in my mind and provided an alternative perspective to the situations that I was in.

Although I am still navigating through my issues, I feel much more confident and better prepared to handle them. In the end, the biggest factor with Shraddha is that she is always available for a quick discussion /chat right when you need it and you don't necessarily have to wait till the "scheduled" appointment. I would highly recommend her as a life coach.

**AKSHAY DWIVEDI**

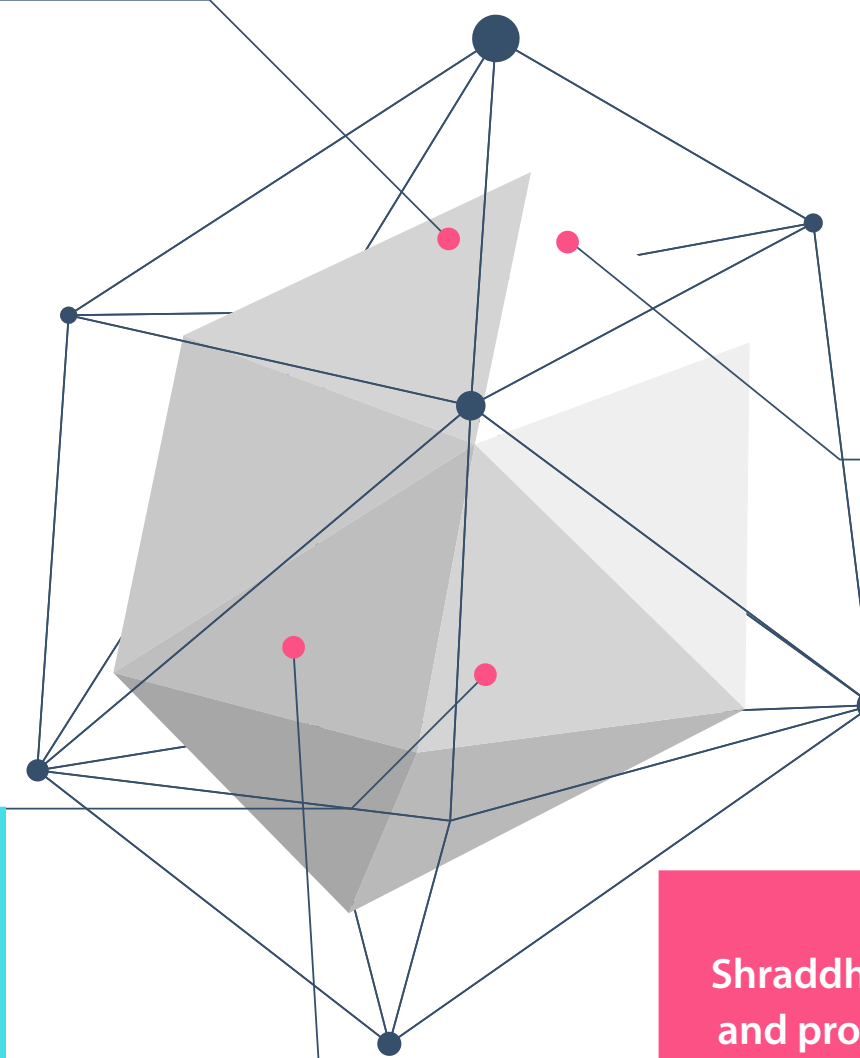

Architect, France

Shraddha is an amazing life coach. She is very emphatic and professional. My sessions with her helped me truly move forward with life. She has a versatile tool box that can help anyone gain clarity, make great change, and create next steps. I was expecting a session with Shraddha where she would advise me directions to take to make my life happy. She instead taught me how to choose my own directions and grow as a person for unlimited happiness. Thank you so much Shraddha.
